

HOW TO SET-UP AND MANAGE BREAKOUT ROOMS

OVERVIEW

Breakout rooms allow you to split your Zoom meeting in up to 50 separate sessions. The meeting host can choose to split the participants of the meeting into these separate sessions automatically or manually, and can switch between sessions at any time.

Note:

- Make sure to [enable breakout rooms](#) before following this article.
- You can also [pre-assign participants to breakout rooms](#) when you schedule the meeting instead of managing them during the meeting.

 - Windows: **3.5.31087.1102** or higher
 - macOS: **3.5.31087.1102** or higher

LIMITATIONS

Users joined into the Zoom meeting from the Zoom Mobile App or H.323/SIP devices can participate in breakout rooms, but cannot manage them. Users joined using Chromebooks/Chrome OS or Zoom Rooms are unable to join breakout Rooms, but the main room can be used as an alternative session for these users.

If the meeting is being cloud recorded, it will only record the main room, regardless of what room the meeting host is in. If local recording is being used, it will record the room the participant who is recording is in. Multiple participants can record locally.

You can create up to 50 breakout rooms. The maximum number of participants in a single breakout room depends on the meeting capacity and number of breakout rooms created.

Meeting add-on, the maximum number of participants is limited by your meeting capacity.
