

## SHARING A SECOND CAMERA

### OVERVIEW

Screen sharing a camera input allows for sharing a camera connected to your computer. This will allow using two cameras at once during a Zoom meeting. This is commonly used when needing to share a document camera.

This article covers:

- How can I share two cameras at the same time?
- How can I share a document camera?

### PREREQUISITES

- Windows or Mac version 3.5.37712.0111 or higher

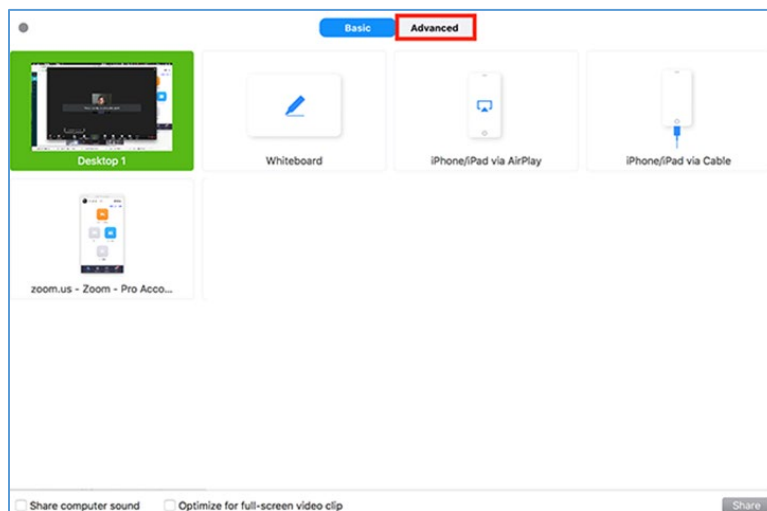

### INSTRUCTIONS

Using a Second Camera in a Meeting

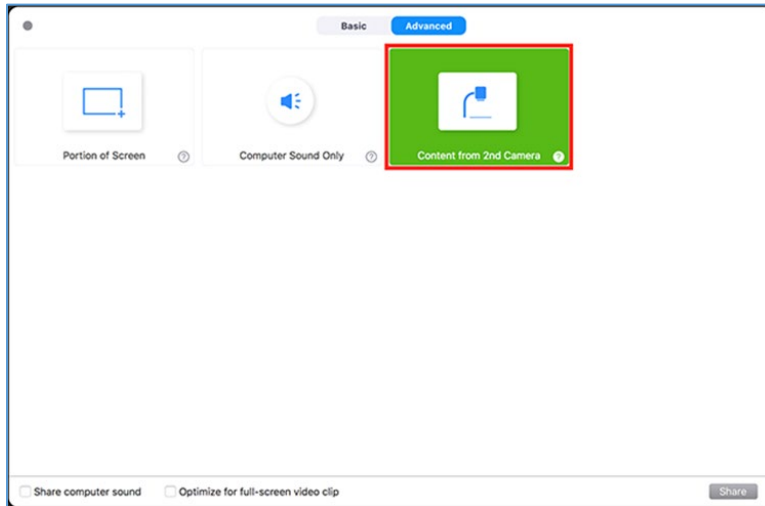

- In a Zoom meeting, select **Share Screen**.

- Click the **Advanced** tab.

- Click **Content from 2nd Camera**.

- Click **Share**.

If you need to choose a different camera, choose Switch Camera at the top left.
