Active Learning Technique

Steps

1. Assess what you have - student abilities and knowledge, site, funding, personal network (colleagues new and old).
2. Set overall goals that benefit all students regardless of age, gender, and class standing.
3. Be flexible.
4. Start small.
5. Collect experiences and information to support adaptive management.
6. Chill out and enjoy!

Benefit to Student

1. Immersive exposure to new ways of living and learning.
2. Personal experiences requiring critical thinking, and open-mindedness.
3. Personal growth, confirming independence, changes in judgment, feelings of positivity and hope.
