This 15-minute video tutorial titled "How to do well in this class" provides students with success strategies for the online, asynchronous format. It demonstrates how to take lecture notes, how to annotate readings, how to distribute time and effort, and how to prepare for exams.

Active Learning Technique Description

Active Learning Technique Steps

Students receive a visual demonstration of the following:
1. How to watch an academic lecture and take notes.
2. How to read an academic article and take notes.
3. How to assemble a study guide and prepare for the exam.
4. How to leverage active learning techniques to master the course material.
5. How to decide the number of hours to dedicate to the course material.

Benefit to Student

- Note Taking
- Active Learning
- Study Skills
- Time Management
